

DIRECT LOADING BY UNIWIZ

The Direct Loading Application of LoadCentral allows sub-dealers and retailers to transfer funds or deposit directly to Uniwiz bank accounts and upon verification, loading of wallets will be done by LoadCentral Head Office Admin staff. The same applies for Smart Money transfers. The GRO (dealer's or sub-dealer's earnings) will still be credited automatically to the account of the dealer/sub-dealer. This should relieve the dealer or sub-dealer from worrying about payment verifications when transfers are done to their own account. They can focus their efforts and resources in recruiting more sub-dealers and retailers and in monitoring their transactions.
